

DIHWORLD AUDIO

Pricing Team Handoff

Proposed price ladder, processor-tier logic, Lifetime benefits, and approval checklist

PROPOSED - TEAM REVIEW REQUIRED

No price or Lifetime term in this handoff is final until the team approves it.

Prepared	August 22, 2026
Decision owner	_____
Target approval	_____
Final decision	APPROVE / REVISE / HOLD

Purpose

This handoff gives the DIHWorld Audio team one place to review the proposed public price ladder, the logic behind each tier, the confirmed Lifetime benefits, and the decisions that must be approved before paid checkout opens.

The prices below are proposals. They are displayed on the current storefront as proposed launch pricing and should not be treated as final until the team signs off.

Executive Recommendation

Keep the current proposed ladder for team review. The structure gives customers a clear path from one processor to a focused family, the Core Bundle, the Complete Collection, and Lifetime membership without pricing the 42-plugin catalog like a generic utility pack.

The strongest change is presentation: show the launch price, regular comparison price, savings, included processors, and fulfillment status clearly. Do not change prices merely to imitate competitor discounts.

Proposed Public Price Ladder

Offer	Launch	Regular	Team decision
Utility individual	\$29	\$49	Keep / Change
Standard individual	\$59	\$99	Keep / Change
Signature individual	\$79	\$129	Keep / Change
Flagship spatial individual	\$99	\$149	Keep / Change
DIH Core Bundle	\$299	\$499	Keep / Change
Complete Collection - 42 plugins	\$899	\$1,499	Keep / Change
Founder Lifetime	\$1,499	\$1,999	Keep / Change
Standard Lifetime	\$1,999	\$2,499	Keep / Change
Studio Lifetime - up to 5 seats proposed	\$3,499	\$4,999	Keep / Change

Individual Processor Tier Logic

Utility - \$29 launch / \$49 regular

Use only for observation, metering, or support-focused products such as SESHAT. This is the lowest public floor and should not become the default price for authored processors.

Standard - \$59 launch / \$99 regular

Use for focused single-purpose processors with finished interfaces, presets, documentation, and a clear place in a session. This is the default individual tier.

Signature - \$79 launch / \$129 regular

Use for processors with stronger identity, broader workflow value, or a central role in a family. Current examples: DEBO, DrumKrushGlue, Mariana, GOLD, PLATINUM, and NTRSTLLR.

Flagship spatial - \$99 launch / \$149 regular

Use for SacredVerb and Cathedral. Their authored spatial systems, finished visual identity, controls, presets, and role inside the Core Bundle support the premium individual tier.

Proposed Family Prices

Family	Plugins	Launch	Regular
Vocal / Mic Source	6	\$299	\$499
Dynamics / Guard	5	\$249	\$399
Bass / Low End	4	\$199	\$329
Drum / Instrument	2	\$99	\$179
Color / Amp / Tape	4	\$199	\$329
Field / Tone / Balance	2	\$99	\$179
Dimensional / Impact / Move	3	\$149	\$249
FX / Spatial	3	\$199	\$349
Harmonics / Pitch	3	\$149	\$249
Creative / Transform	3	\$149	\$249
Mastering Core	5	\$299	\$499
Master Field	1	\$79	\$129
Utility / Observation	1	\$29	\$49

Proposed Workflow Bundles

Bundle	Launch	Regular	Included processors
DIH Core Bundle	\$299	\$499	SacredVerb, Cathedral, DEBO, DrumKrushGlue, Mariana
Vocal Capture	\$299	\$499	GOLD, SILVER, WPR, AEGIS NOVA, TRIPLER, EchoLocate
Bass Foundation	\$199	\$329	Mariana, Monolith, Depth Impact Hybrid, NTRPL
Master Bus	\$399	\$699	SPHYNX, MAAT, PLATINUM, HORIZON X, IMHOTEP, ANKH, SESHAT
Color Amp Tape	\$199	\$329	APIS, PTAHTUBE, KHEPRI, SOVEREIGN
Spatial Motion	\$399	\$699	Depth Impact Hybrid, PARALLAX, NSR, NTRSTLLR, Cathedral, SacredVerb
Drum Design	\$149	\$249	DIH DRUM MORPHER, BALLPARK
Dynamics Guard	\$299	\$499	DEBO, DrumKrushGlue, ANUBIS, OTIS, LOOKOUT
Creative Lab	\$299	\$499	THOTH, TEHUTI, AU, SLOTMACHINE, ARCHAEOLOGIST X, SERQET

Lifetime Membership - Confirmed Benefits

Lifetime membership should currently promise:

- The Complete 42 Collection at enrollment.
- First-look previews of DIHWorld Audio products in development.
- One Zoom technical-support session per month.
- 10% off future products.

Important: future products are discounted by 10%; they are not automatically included free unless the team later approves that benefit in writing.

Lifetime Terms Still Requiring Team Approval

- Is the monthly Zoom session individual or group-based?
- What is the session duration, booking process, rescheduling rule, and no-show policy?
- Does unused monthly support expire, or can it roll over?
- Does "first look" mean preview videos, private demos, beta access, or all three?
- Is the 10% discount non-stackable? Which products, bundles, upgrades, or partner products are excluded?
- Is Founder Lifetime limited by date, customer count, or both?
- What are the seat count, transfer, refund, and account-sharing rules?
- What support response time is included outside the monthly Zoom session?
- What happens if a product or service is retired?

Competitive Presentation Direction

The supplied Native Instruments, Universal Audio, and Waves screenshots consistently use large neutral sans-serif typography, generous spacing, clear product imagery, rounded calls to action, regular-price strike-throughs, and visible savings. DIHWorld should use those presentation principles while retaining its own black-and-gold identity.

Recommended storefront behavior:

- Show "Proposed launch" until the team approves pricing.
- Show launch and regular prices together.
- Use savings badges only when the comparison price is genuine and supportable.
- Keep product inclusions immediately visible.
- Do not publish an Add to Cart button until the exact installer, protected URL, terms, and refund policy are ready.

Public launch dates and sale end dates	☐	☐	

Publication Gate

Pricing can be marked FINAL only when the team approves the numbers and Lifetime terms, each paid offer has an exact fulfillment package, protected customer URLs are connected, checkout terms are published, and the responsible owner signs this handoff.
