

DIHWorld Audio End User License Agreement

Current review date: July 15, 2026 Document version: 0.9 - canon-aligned attorney-review draft Licensor: William Slocumb, doing business as DIHWorld Audio Product system: DIHWorld Audio plugins, installers, presets, manuals, templates, and related digital materials

This End User License Agreement ("Agreement") is a legal agreement between you ("User," "you," or "Licensee") and William Slocumb, doing business as DIHWorld Audio ("DIHWorld Audio," "we," "us," or "Licensor"). By downloading, installing, activating, copying, accessing, or using any DIHWorld Audio software, plugin, preset, installer, documentation, template, or related digital material, you agree to this Agreement.

If you do not agree to this Agreement, do not install or use the software.

1. Licensed Software

"Software" means all DIHWorld Audio products provided to you, including but not limited to Audio Unit, VST3, standalone, Mac installers, Windows installers, presets, factory content, images, user manuals, templates, plugin families, bundle installers, updates, and related files.

The Software is licensed, not sold.

2. License Grant

Subject to this Agreement and payment of any required fee, DIHWorld Audio grants you a limited, non-exclusive, non-transferable license to install and use the Software for personal, professional, studio, production, mixing, mastering, sound-design, educational, or creative audio work.

You may use audio outputs, mixes, masters, stems, productions, performances, and recordings created with the Software in commercial or non-commercial projects without owing royalties to DIHWorld Audio.

3. Trial License

DIHWorld Audio may offer a free trial of selected Software.

Unless a product page states otherwise, the standard DIHWorld Audio trial period is three days from first successful activation or another clearly displayed authorized trial start. Installation alone does not begin the trial unless the installer clearly states that it also activates the trial.

Trial versions may be fully functional or may include reasonable trial limitations, notices, or authorization requirements. Trial access is provided only for evaluation. After the trial period expires, continued use requires purchase or authorization.

Users may not reset, bypass, manipulate, extend, or defeat a trial period without written permission from DIHWorld Audio.

4. Product Updates

Product updates are free after purchase for the purchased plugin or bundle, unless a future product is clearly identified as a paid upgrade, new major product, expansion, separate instrument, separate bundle, or separate license.

Free updates may include maintenance fixes, compatibility updates, installer updates, preset refinements, asset corrections, UI improvements, and other product improvements at DIHWorld Audio's discretion.

DIHWorld Audio does not guarantee that every product will receive the same number, type, or frequency of updates.

5. Ownership and Intellectual Property

DIHWorld Audio and its licensors retain all ownership rights, title, and interest in the Software.

This includes, without limitation:

- Source code and object code
- Plugin designs and audio engines
- DIHWorld Audio canon, family system, dot system, placement logic, names, routing language, and manuals
- Product names, bundle names, branding, marks, artwork, UI images, backgrounds, symbols, presets, templates, and documentation
- Factory audio content, samples, generated assets, and included media

- Installer structure, product packaging, and related release materials

No ownership rights are transferred to you by this Agreement.

6. Restrictions

You may not:

- Sell, rent, lease, sublicense, redistribute, upload, share, or transfer the Software except as expressly allowed by DIHWorld Audio
- Copy the Software except as necessary for installation, backup, or authorized use
- Reverse engineer, decompile, disassemble, modify, translate, unlock, crack, bypass, or derive source code from the Software
- Extract, reuse, resell, redistribute, or repackage DIHWorld Audio assets, presets, images, samples, manuals, templates, or factory content as standalone products
- Remove copyright notices, brand marks, license notices, or product identifiers
- Use the Software or its assets to create a confusingly similar competing product
- Use the Software, source code, assets, presets, documentation, or manuals to train, fine-tune, evaluate, or build artificial intelligence systems, machine learning models, datasets, or automated generation systems without written permission
- Circumvent licensing, authorization, trial limits, installers, signatures, notarization, copy protection, or platform security checks
- Claim authorship or ownership of DIHWorld Audio products, plugin concepts, assets, or documentation

7. Installation and Devices

Unless the purchase page or written license states otherwise, one purchased license may be used by one individual user on that user's personally controlled computers.

Studio, business, institutional, educational, or team use may require additional licenses if multiple users independently use the Software.

You are responsible for maintaining backups of installers, licenses, projects, presets, sessions, and system configurations.

8. Presets, Templates, and User Results

DIHWorld Audio presets and templates are creative starting points and workflow aids. They are not guarantees of a particular commercial, musical, sonic, mastering, loudness, compliance, or release outcome.

You are responsible for all listening decisions, gain staging, mix decisions, mastering decisions, publishing decisions, and final audio approvals.

Templates are starter workflows only and should not be treated as case study results, client results, or guaranteed production outcomes.

9. Refunds

Refunds are handled according to DIHWorld Audio's posted store policy, the payment processor's applicable rules, and applicable law.

Because audio plugins are downloadable digital products, refunds may be limited after download, installation, activation, or use. DIHWorld Audio may offer refunds in industry-standard circumstances, including duplicate purchases, technical inability to use the product after reasonable support attempts, or other cases approved by DIHWorld Audio.

The availability of a three-day trial is intended to help users evaluate compatibility and creative fit before purchase.

10. Support

DIHWorld Audio may provide support through the website, email, documentation, updates, or other channels announced by DIHWorld Audio.

Support does not include guaranteed mix reviews, mastering decisions, DAW training, operating system repair, third-party plugin support, or support for unauthorized modified copies.

11. Third-Party Platforms and Components

The Software may depend on third-party platforms, formats, tools, libraries, operating systems, DAWs, plugin hosts, certificates, installers, or runtime components.

Examples may include Apple Audio Units, VST3, JUCE, macOS, Windows, Logic Pro, plugin host scanning systems, signing/notarization systems, installer frameworks, and other platform technologies.

DIHWorld Audio is not responsible for third-party platform changes, DAW behavior, operating system changes, hardware failures, certificate outages, expired developer agreements, discontinued host support, or third-party compatibility breaks beyond DIHWorld Audio's reasonable update efforts.

12. No Warranty

The Software is provided "as is" and "as available" to the maximum extent permitted by law.

DIHWorld Audio does not warrant that the Software will be uninterrupted, error-free, compatible with every system, suitable for every production, or free from all defects.

You use the Software at your own risk.

13. Limitation of Liability

To the maximum extent permitted by law, DIHWorld Audio will not be liable for indirect, incidental, consequential, special, punitive, exemplary, or lost-profit damages arising from or related to the Software.

This includes, without limitation, lost sessions, lost recordings, lost masters, lost income, lost opportunities, data loss, system failures, DAW crashes, project corruption, or third-party claims.

DIHWorld Audio's total liability for any claim related to the Software will not exceed the amount you paid for the specific DIHWorld Audio product giving rise to the claim.

14. Termination

This Agreement remains effective until terminated.

Your license automatically terminates if you violate this Agreement. Upon termination, you must stop using the Software and delete unauthorized copies.

Sections concerning ownership, restrictions, warranty disclaimers, liability limits, and dispute terms survive termination.

15. Transfer

You may not transfer, resell, assign, or give away your license without written permission from DIHWorld Audio.

DIHWorld Audio may permit license transfers under a future written policy, but no transfer is allowed unless DIHWorld Audio expressly approves it.

16. Export and Legal Compliance

You agree to comply with applicable export laws, sanctions laws, intellectual property laws, and other laws that apply to your use of the Software.

You may not use the Software where prohibited by law.

17. Governing Law

This Agreement is governed by the laws of the jurisdiction where Licensor resides or principally operates, without regard to conflict-of-law rules, unless a mandatory consumer protection law requires otherwise.

Specific venue, arbitration, or dispute provisions may be added by DIHWorld Audio in a later published version.

18. Entire Agreement

This Agreement, together with any purchase terms, refund policy, trial terms, product page terms, or written license terms provided by DIHWorld Audio, forms the entire agreement between you and DIHWorld Audio regarding the Software.

If any part of this Agreement is found unenforceable, the remaining parts remain in effect.

Publication Status

This draft is approved for DIHWorld canon, product-update, trial-length, refund-policy, naming, and documentation alignment. It is not approved as final legal advice or for public release until a qualified attorney confirms governing law and venue, consumer-law requirements, the public support contact, privacy/telemetry disclosures, and the final posted refund policy.
