

DIHWorld Audio

Master Field Technical Manual

Current product versions, controls, presets, meters, and placement

DIHWorld Audio builds connected production systems around the Imhotep 369 Engine—a Triadic Harmonic Lattice—and Ma'at 357 / MomentumBend. Phi-derived control and the canonical Phi/2 ceiling preserve movement, balance, and musical intent without brickwall limiting.

This edition documents 1 current products. Release numbers are taken from the installed DIHWorld Audio Audio Units verified on 2026-09-05; they are product versions, not a shared catalog version.

Canon reference: normalized $\text{Phi}/2 = 0.809016994$. MomentumBend shapes motion and containment; the ceiling is a canonical boundary, not permission for hard limiting.

Operating law: begin from reset or a purpose-matched preset, compare at equal loudness, change one system at a time, and judge the result in the full arrangement.

IMHOTEP

RELEASE	FAMILY	PLACEMENT
v1.0.1	Master Field	Master Field

Macro master-field builder for foundation, architecture, dimension, finish, tonal axis, I/O trim, and Flower of Life dispersal.

Recommended use: macro master-field structure and finish

Customer formats: AU, VST3, Standalone

Exposed parameter surface

Parameter ID	Display name	Type
dispersal	Flower of Life Dispersal	Bool
gainmatch	Gain Match	Bool
channelmode	Channel Mode	Choice
foundation	Foundation	Factory
architecture	Architecture	Factory
dimension	Dimension	Factory
finish	Finish	Factory
tilt	Tonal Axis	Factory
input	Input Trim	Factory
output	Output Trim	Factory

Factory starting points

MASTER BUILDER CANON • CLEAN PRINT FRAME • FOUNDATION MONUMENT • VOCAL MASTER ORDER • DENSE MIX REBUILD • OPEN PYRAMID FIELD • TRANSIENT STONework • GREAT PYRAMID

Meters and visualizers

INPUT PEAK: Peak entering the master builder. Confirms headroom before macro shaping.

FIELD ACTIVITY: Combined foundation, architecture, dimension, and finish activity. Shows how strongly the macro field is engaged.

OUTPUT / PHI CEILING: Output level relative to containment. Persistent maximum readings mean less available headroom.
